

## **This Week in the Church**

**July 10-17**

**We have a new heating and air system.** McGee Heat and Air installed our new system. They were the lowest bid and did a very professional job promptly. Upon turning on the air in our back hallway for VBS, that system is not working. It will be looked at this week to determine what the problem is.

**The church internet is being looked into.** The internet has not been reliable for some time. It is constantly a problem. AT&T will be approached (current provider), and we will ask other providers what they can offer.

**Debbie Capps celebration was a success.** I thank all who did so much to make that event possible!

**VBS was successful beyond our expectations.** I thank all who did so much to make that effort come together!!! It was a major undertaking of faith, which is what pleases God. We did our part; He richly blessed us.

**The Trustees met this week.** My major take away from that meeting is that we need to improve upon communication and record keeping within the Trustees. I'm not saying that it has been inadequate. Not all Trustees are at every meeting, which creates confusion. Minutes emailed out after each meeting to all on the team may be a first step. Trustees will have to ask Administrative Council for additional monies to handle ongoing expenses that occur in 2021.

**Charge Conference will be here soon.** I make that statement so Chair persons and team members can begin planning budgets in line with Forward Focus. What are your goals? What budget is necessary to accomplish your goals effectively?

**I missed United Methodist Men this time.** I will share next time.

**It has been a great week at BFUMC!!!**
