

Paycheck Protection Program

Church Family,

In the midst of the present economic crisis I am sure you are aware of loans made available to help small businesses. Berea Friendship applied for help through the Paycheck Protection Program. The loan we applied for can be used to meet payroll and utility expenses. As long as the monies are applied toward those specific expenses the loan does not have to be paid back. After a long drawn out process, the loan was finally approved, and deposited in our account on May 6th. The church can apply those monies toward payroll and utilities May 6th through June 30th. The church's current bank is Bank of America, and the loan came through them. A new designated account was opened at Bank of America to process the money through, and maintain a perfect clear accounting trail. Berea Friendship should be thankful that we have come through the recent economic down turn in good shape. Berea Friendship's Child Development Center is reopening June 1, 2020 with the overwhelming majority of parents ready to do so. Be in prayer that things continue to go well within the congregation, and CDC families. We are blessed at Berea Friendship!

Much Love In Christ,
Pastor Davon
